If all the babies named Dewey were only old enough to vote, the result might be very different.

A good many women know where they can get a perfect love of a hat for \$16.37 without having a very clear idea as to where they are to get the \$16.37. It is one of the tragedies of life.—Chicago Record.

Senator Clark, of Montana, will be unseated. The senate committee on privileges and elections voted unanimously to unseat him. He used over \$170,000 to secure his election. Senator Clark will probably resign.

It is said that Admiral Dewey is thinking about withdrawing from the race. What's the difference? Let him stay. There is no reason why there should not be a little jocosity even in a presidential campaign.

Dr. Hillis insists that he has permanently demitted from the Presbyterian church and therefore is simply a layman now. He is Mr. Hillis without any ministerial standing and he may remain outside of any denominational fold.

B. C. Moon, of Kokomo, is a candidate for the democratic nomination for judge of the supreme court from the Fourth district. He is a lawyer of exceptional ability, a citizen of exemplary character, and a democrat of high standing in the party.

President McKinley will find much to think about in the following passage in Pennsylvania's democratic platform: "We denounce the sinister influences that have caused the president in regard to Puerto Rico to depart from what he termed was a plain duty."

The Ohio law which provided for the prosecution of employers who discharged men because they were members of a union has been declared invalid on the ground that it was class legislation. The law provided no remedy for nonunionists who might be discharged. The judge thus held that workmen who do not belong to unions were discriminated against.

Fred Landis, of Logansport, a brother of Congressman Landis, was nominated for joint representative by the republicans of Cass and Fulton counties yesterday. Fred is a popular young man, but as the

Crippled by Rheumatism. One of the saddest sights is that of a strong man lying crippled and helpless, prostrated by the withering touch of Rheumatism. The mind as keen as ever, the affections strong, a perfect man imprisoned in a distorted helpless body. Athlo-phos, the wonder-working and almost miraculous discovery, comes to the rescue of such afflicted. Athlo-phos has cured thousands in the past. It seldom fails. Fifty thousand testimonials on file at the home office prove the truth of this statement. Athlo-phos is a positive cure for Rheumatism. Send for free pamphlet.

Washington, Ia., Sept. 12, 1898. Several years ago I was all crippled up by Rheumatism, and on getting a bottle of Athlo-phos and taking it I was completely cured. I think it the greatest of all cures for Rheumatism. My mother was troubled with Neuritis a year ago, and I got her to try the medicine. She did so, and on the third day was greatly relieved, and on taking the contents of the entire bottle was cured. Ever yours in praise, OWEN O. HAYES.

democratic majority in the two counties exceeds 600, he is not likely to get any more out of it than the glory there is in making a losing race. He had no opposition in the convention.

The national house of representatives yesterday concurred in the senate amendments and the Porto Rican bill passed by a vote of 161 to 153. Nine republicans went on record against the measure, one of whom was Crumpacker, of Valparaiso. The democrats opposed the bill because it does not give the Porto Ricans such government as we would accept for ourselves. It was a similar tax imposed upon America by Great Britain that made a tea pot of Boston bay in 1775.

The session of the North Indiana conference just closed, was one of the longest and most interesting in the history of the conference. The problems that have arisen in the church which were voiced in the recent proclamation of the board of bishops had much weight in the transaction of business, and especially the assignment of pastors, and such action was taken and appointments made as was thought would be to the best and highest interest of the work during the coming year. There is a feeling throughout the church that more aggressiveness, faithful, persistent work should be done along purely spiritual lines and the ministers return to their flocks with this idea uppermost in their minds.

CAMPAIGN ASSESSMENTS.

The expense connected with political campaigns is a matter of frequent comment. It has been often remarked that campaign expenses may easily eat up a small fortune, even in a canvass for a minor office. The more important offices, of course, demand a proportionately greater expenditure of money on the part of the individuals seeking them. It is said that a candidate for the United States senatorship from this state some years ago spent not less than \$20,000 from first to last in the canvass which landed him in the senate. This expenditure covered several campaigns in which he took an active part, contributing largely to state and local campaign funds and paying his own expenses on stumping tours over the state. His unsuccessful rival is thought to have spent fully as much, and in a period of only a few months.

The assessments of candidates for state offices by the state central committee have been increasing from one campaign to another until they now range from \$1,000 to \$2,500 and in a few instances they have run as high as \$4,000. Twenty years ago, an assessment of \$1,000 was considered high. To these assessments must be added the candidate's personal expenses in conducting his campaign. This adds largely to the burdens of a candidate.

The most objectionable feature of campaign assessments is that it practically makes it impossible for a poor man to run for a state office. There are some cases where assessments have been ignored by candidates, but that is a disagreeable way to deal with them. It leads to harsh criticisms and sometimes to criminal recrimination.—South Bend Times.

Prohibition Meeting.

The prohibitionists of Marshall county, will meet in Kuhn's hall, Plymouth, Ind., on Wednesday, April 18th, at 2:30 p. m. and 7 p. m., for the purpose of electing delegates to the state convention, and also to listen to the eloquent addresses of I. S. Wade, the noted prohibition orator, in his delineation of facts so vital to the public interests at the present time. The public is earnestly invited to attend these meetings, as nothing will be said to offend any political or religious opinions. COMMITTEE.

Thanks to Democrats.

To the democrats of Marshall county who gave me their support at the convention on April 6, 1900, I wish to say that I feel truly grateful and will show my appreciation for the same by working earnestly for the entire democratic ticket, which rests on principles too noble to be sacrificed for trivial causes.

CHAS. H. CURTIS.

A Very Creditable Run.

No. 7, the fast mail and express train on the Pennsylvania lines, made up one hour and five minutes last time in making the run from Fort Wayne to Clarke Junction last Saturday night. The train was of the usual size and weight and to accomplish the feat it had to average nearly a mile a minute, including all time lost at the several stops enroute. The 126 miles were covered in 129 minutes, a stop of eight minutes at Hamlet to allow the east-bound limited to pass, and a stop for coal at Plymouth.

At the meeting of the Indiana state board of health last week it was determined to insist in the future on the strict enforcement of the health laws of the state. Health officers will be required to do their full duty under the law, and physicians who fail to report deaths and births to the health authorities will be held amenable to the law.

An exchange truthfully says that a boy can sit on a sled six inches square tied to a sled moving eight miles an hour, but he can't sit on a sofa five minutes for a dollar. A man will sit on an inch board, and talk politics for three hours, but put him in a church pew for forty minutes he gets nervous, twists and turns, and goes to sleep. A man will pouch his cheeks with tobacco, and the juice running down his chin feels good, but a hair in the butter kills him.

WAR TO THE DEATH!

PESTS OF THE POULTRY YARD MUST GO!

American Lice Destroyer Kills More Mites, Lice and Other Vermin in a Day Than All Other Remedies Combined.

The war is on! The days of lice and vermin that have done so much to make the life of the poultryman miserable, and his business unprofitable are over. American Lice Destroyer is the proper ammunition to use! This preparation is wonderful in its power, and vermin cannot exist twenty-four hours after it is applied to the coop or fowls. Every poultryman needs it. It is cheap reliable and effective, one package being sufficient to protect 250 fowls from mites and lice for one year. When this Destroyer is used, profits at once increase. Lice and vermin do more to kill profits than all other causes combined. You know it. Don't go on losing money every week, but try American Lice Destroyer. You may have tried other things without success, but if this fails you can have your money back. We are in this fight to stay, and will back Destroyer against any number of mites or lice you may have. Don't fool away money with "recipes" or home-made makeshifts. Use scientific means. The American Lice Destroyer has been used by thousands of poultrymen; it has been on the market several years and has been tested thousands of times. We know it is all right, and if it doesn't do the work remember you get your money back. What more can you ask? If your druggist don't sell American Lice Destroyer, he's behind the age. In that case send for a \$1.00 box at once. Made only by American Mfg. Co., Terre Haute, Ind. 3
